## **REASONS FOR ALLOWANCE**

### ***Status of Claims***

1. Claims 14 and 16-24 are allowed. Claims 1-13, 15 and 25-41 are cancelled.

### ***Discussion***

2. The following is an examiner's statement of reasons for allowance:
3. The sole base claim is claim 14, which can be summarized as follows:

Claim 14 covers a process for making a tubular composite containing at least one integrally reinforced section, which process comprises:

- applying a first face sheet on the outside of a mandrel having a longitudinal axis,
- covering the outside surface of the first face sheet with a core layer that has differing thicknesses at different points on the longitudinal axis,
- applying a second face sheet to the core layer such that the thicknesses of the first and second face sheets vary at different points along the longitudinal axis while, at the same time, the overall thickness of the composite is the same at all points,
- curing the first and second face sheets, and
- removing the mandrel.

4. The prior art of record fails to teach or suggest processes that employ all of the features recited in claim 14.
5. Also, applicants' arguments in the response dated 15 July 2004, especially those presented at page 7, line 16 through page 9, line 2, are deemed persuasive.

Art Unit: 1772

6. Any comments considered necessary by applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
